

Enrollment Guide of China University of Geosciences

Beijing for International Students (2024)

I General Information

The China University of Geosciences Beijing (CUGB) is situated on Xueyuan Road, in the Haidian District of Beijing, China—an area which houses many illustrious academic institutions. It is a national key university of the People's Republic of China, administered directly by the Ministry of Education, which established the University in partnership with the Ministry of Natural Resources. In 2017, CUGB was selected into the Double First Class Disciplines University¹ plan.

CUGB evolved from the Beijing Institute of Geology, which was formed in 1952 by merging the Departments of Geology of Peking University, Tsinghua University, Tianjin University and the Tangshan Institute of Railways. CUGB is therefore a university with a profound heritage as well as its own distinctive features. In 1970, the Beijing Institute of Geology moved its campus to Wuhan. In 1978, under the direct care of Comrade Deng Xiaoping, operations of the Beijing Institute of Geology were resumed at the original campus in Beijing. Established in both Beijing and Wuhan in 1987, the China University of Geosciences in Beijing (CUGB) was one of the first 33 universities in China to pilot graduate schools, and was among the first batch to enter the ranks of Project 211 and Project 985 Innovative Platforms for Key Disciplines³. In February 2000, responsibility for CUGB passed from the Ministry of Land and Resources to the Ministry of Education. In March 2005, the original university campus closed, and university management is now carried out respectively in Beijing and Wuhan.

CUGB has always carried forward the fine tradition of combining geological education with scientific research and practice in the service of the Chinese nation. The core values of the University are "loving the motherland, enduring hardship, being a pioneer, and daring to explore". In pursuing these values, the university has shouldered the glorious mission of being a trailbreaker for socialist construction, cultivating a great many specialized geological personnel who are urgently needed to support the economic development of the nation. Through arduous struggle and

continuous self-renewal, the university has made an indelible contribution to the burgeoning industries of the New China and to the development of geological field. The university itself represents a distinctive character—vigorous, brave, steadfast, and becoming ever stronger in adversity.

CUGB now has 16 schools, 47 undergraduate programs, 16 doctoral degree conferring spots of first-level disciplines, 34 master's degree conferring spots of first-level disciplines, and 15 master's degree conferring spots in professional fields. There are 17289 full-time students, including 8456 undergraduates, 6546 postgraduates, 2119 doctoral candidates, and 168 overseas students including students from Hong Kong, Macao and Taiwan as well as overseas Chinese. The university campus covers a total area of 5,258,443 square meters and in addition, there are practical geological field stations in Zhoukoudian, Beidaihe, and Pingquan, Hebei.

CUGB is a research-oriented university with geology, natural resources, and environment study as its principal fields, covering science, engineering, liberal arts, management, economics, law, and other disciplines. Two disciplines—geology, geological resources and geological engineering—were selected as national "Double First Class" disciplines, and two disciplines received A+ in the fourth round of discipline evaluation carried out by the Ministry of Education. The eight disciplines of geosciences, engineering science, environment/ecology, materials science, chemistry, computer science, social science and agricultural science are in the top 1% of the ESI, with geosciences being in the top 1%.

CUGB has a high-calibre faculty team with 1723 teaching and administrative staff, including 1007 full-time lecturers, 303 professors, 389 associate professors and 385 Ph.D supervisors. Among its staff, CUGB is home to 11 academicians of the Chinese Academy of Sciences, one academician of the Chinese Academy of Engineering, 16 teachers who have received the National Science Fund for Distinguished Young Scholars, one teacher who won the National Renowned Teachers Award, two teachers who won the title of 'national excellent teacher', 2 Huang Danian-style teaching teams for colleges and universities in China, a national excellent teaching team, 19 winners of the National Excellent Young Scientists Fund, twenty-eight teaching masters in Beijing, and 5 famous young teachers in Beijing. CUGB also hosts 15 post-doctoral research centers.

CUGB has an outstanding reputation for talent cultivation. The university has

always regarded strengthening moral education and cultivating people as its most fundamental task, and has cultivated more than 200,000 excellent talents for the nation. A large number of them have become elites in their fields, represented by Comrade Wen Jiabao. Forty-four graduates have been elected as academicians of the Chinese Academy of Sciences and/or the Chinese Academy of Engineering, and more than two hundred graduates have become model workers at provincial and ministerial levels. CUGB adheres to the objective of training high-calibre talents with "good morality, solid foundations, broad knowledge, and profound professional commitment". The university maintains talent training as its core mission and undergraduate education its fundamental task, forming an education system that merges "liberal education, professional education, innovation and entrepreneurship education". CUGB has ten undergraduate majors that have been selected as first-class majors with distinctive advantages, two national-level experimental teaching demonstration centers, and one national-level virtual simulation experimental teaching center. Students actively participate in various competitions, provide voluntary services, social practice, innovation and entrepreneurship activity, as well as artistic and athletic competitions, in all of which they have achieved excellent results.

CUGB is a crucial base for national geoscientific research. With its effort in strengthening scientific and organizational planning, outstanding achievements have been made in areas such as scientific research projects, high-level academic accolades, scientific research awards winning, scientists training, scientific research platform construction, intellectual property building, IP transformation, etc. CUGB has made important contributions to the understanding of the geological evolution of the Qinghai-Tibet Plateau and also to non-traditional isotope geochemistry, geological processes and mineralization, ultra-deep drilling, polar research, etc. Many papers have been published in top international journals such as Nature, Science, and Nature Geoscience. In the past five years, CUGB faculty members have won forty-four national, provincial, and ministerial-level technology awards as the first completion unit. The school has established the Geological Processes and Mineral Resources National Key Laboratory, National Mineral Rock and Fossil Resources Infrastructure for Science and Technology Platform as well as 19 scientific and research platforms varying from Key Laboratories of the Ministry of Education, Key Laboratories of the Ministry of Natural Resources, Engineering Centers, to ministerial and

provincial-level scientific research platforms.

CUGB is active in international exchange and cooperation, having signed cooperation agreements with a number of top universities and high-level research institutions such as the University of California, Los Angeles; the Colorado School of Mines, USA; the University of Waterloo, Canada; the University of Edinburgh and University of Birmingham, UK; the University of Hanover and the Helmholtz Potsdam Center, Germany; and the University of Sydney and Macquarie University, Australia. Exchanges and cooperative relationships have also been established with over two hundred universities and scientific research institutions in more than sixty countries and regions. The school has been approved to establish 4 Project 111 Programs (Program of Introducing Talents of Discipline to Universities) and has been carrying out multiple Foreign Expert Recruitment Scheme, one of CUGB's foreign experts has received the Chinese Government's Friendship Award. In accordance with the "20+20" Cooperation Plan for Chinese and African Institutions of Higher Education, CUGB has established a Confucius Institute at the University of Namibia.

Stepping into a new era, and striding forth on a new journey, CUGB adheres to the guidance of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, acts according to the university motto of "hardworking and plain-living, being realistic and pragmatic", and is implementing a "three-stage" strategic concept for the 100th anniversary of the establishment of the university. CUGB continues to strengthen moral education and cultivate its people, carrying out appropriate "landing actions". The university unswervingly follows the path of connotative development, concentrates on construction, wholeheartedly seeks development and improvement, constantly drives change in its development towards a world-class university in the field of geoscience, and continues to make new and greater contributions to achieving the Two Centenary Goals and the great Chinese dream of rejuvenation of the Chinese nation!

1 The Double First Class Disciplines University Plan is a Chinese government plan conceived in 2015 to comprehensively develop individual university departments into world class disciplines by the end of 2050.

2 Project 211 is a project of National Key Universities and colleges initiated in 1995 by the Ministry of Education of the People's Republic of China, with the intent

of raising the research standards of high-level universities and cultivating strategies for socio-economic development.

3 Project 985 Innovative Platforms for Key Disciplines is a project initiated by the Ministry of Education of the People's Republic of China as part of the national endeavor to build world-class universities in the 21st century.

II Admission Instructions

Plan of Admission

CUGB accepts international students at the following levels: doctoral students, master's students, undergraduate students, Chinese language students, advanced students and general students. We can accept Chinese government scholarship and Beijing Municipal Scholarship for international students.

Time for Application

1. Chinese Government Scholarship: From October 15, 2023 to March 15, 2024
2. Self-funded student: From October 15, 2023 to June 30, 2024

Conditions for Applying

(1) Foreign citizens who are physically and mentally healthy, law-abiding and holding valid passports.

(2) Undergraduate applicants are under the age of 30, master's applicants under the age of 35, and doctoral applicants under the age of 40.

(3) Applicants should have a degree equivalent to a Chinese degree.

(4) To apply for Chinese-taught majors in CUGB, you need a Chinese proficiency certificate of HSK-4 (inclusive) or above. To apply for English-taught majors in CUGB, you need the corresponding language skills.

Documents for Applying (Bachelor, Master or PhD)

(1) Application form (Can be downloaded from <https://gjhzc.cugb.edu.cn/c/2021-09-10/698475.shtml>).

(2) Academic diploma: a photocopy of the applicant's latest academic diploma or certificate of university education.

(3) Academic record: The original transcript of academic record (A photocopy of

the transcript will not do).

(4) Study plan in China.

(5) Two reference letters for Doctoral degree.

(6) A photocopy of the applicant's passport.

(7) Original Health Exam Form. (use the Health statement Instead)

(8) A photocopy of HSK-4 certificate.

(9) Certificate of No Criminal Record. (use the No crime statement instead)

(10) A photocopy of the applicant's emergency contact (can be a passport, license, or other official ID) .

(11) 10 two-inch blue background colored-photographs after enrollment.

Length of Schooling, Tuition, Accommodation & Other Living Fees

(1) Length of Schooling

Bachelor's Degree (4 years), Master's Degree (3 years), Doctoral Degree (4 years).

(2) Application fee

RMB 500 Yuan.

According to school documents, tuition rates are as follows :

(3) Tuition fee

For bachelor's degree RMB 26000 ~39000 Yuan (about US\$4300) per year;

For Master's degree RMB 28000~42000 Yuan (about US\$4600) per year;

For Doctoral degree RMB 35000 Yuan (about US\$5800)per year.

(4) Accommodation

International student dormitory is equipped with separate washrooms, showers and air-conditioning facilities, as well as a public laundry room. There are 2 people in each room, 1200-1500 yuan per person per month. Accommodation fees can be paid on a semester or monthly basis.

International students can also freely choose to rent other types of rooms, which are easier to find around within the campus. The rental price is generally RMB 4,500-6,000 per month for one bedroom and one living room, and RMB 6,000-8,000 per month for two bedrooms and one living room. The room fee is generally paid once every three months or half a year.

(5) Medical insurances

Medical insurance (RMB 800/person/year) for international students in China is compulsory and

must be purchased by every international student studying in CUGB.

Scholarship

Chinese Government Scholarship (Type A)

Applicants submit their applications directly through the local embassy or consulate general. Please query the contact information of the Chinese embassies consulates abroad through the website of the Chinese Ministry of Foreign Affairs. The application time is generally from November of the current year to April of the next year. When filling the "applicant institution" in the Application Form, please fill in "China University of Geosciences (Beijing)" as the first volunteer office. It is suggested that applicants should apply to the embassies and consulates abroad after confirming the receipt of the pre admission notice. The deadline for application and other relevant information should be subject to the embassies and consulates abroad.

Chinese Government Scholarship (Type B)

1.Scholarship Coverage and Standard:

(1) The CSC scholarship students will be immune from register fee, tuition, experiment fee, practice fee and dormitory fee on campus.

(2) The CSC scholarship students will get support of living fee. The standards of living fee are RMB 2500 Yuan per month for Bachelor Degree students, RMB 3000 Yuan per month for master degree students, RMB 3500 Yuan per month for PhD degree students.

(3) CSC scholarship will also cover out-patient medical service and Health Insurance to each international student.

2.Application Conditions:

(1) A valid passport.

(2) Undergraduate applicants are under the age of 30, master's applicants under the age of 35, and doctoral applicants under the age of 40.

(3) Applicants should have a degree equivalent to a Chinese degree.

(4) If your study language is Chinese, for master/PhD students need HSK-4.If your study language is English for master/PhD students, please submit proof of achievement in English.

3.How to apply online :

(1) Login the website:

<https://studyinchina.csc.edu.cn/>, register and upload materials as required.

(2) Program Category Type B

Agency No.: 11415.

(3) Login the website:

<https://cugb.17gz.org/>, register and upload materials as required.

Beijing Government Scholarship

After receiving the admission report, you can apply directly to the relevant schools.

Accommodation, meals, study conditions

CUGB provides international students with dormitory accommodation on campus (2 people for each room). All rooms are equipped with Internet terminals, separate washroom and shower facilities. There is a communal laundry room in the dormitory.

International students studying in CUGB can apply for a campus card for dinings in multiple student restaurants. In addition, the school has a Muslim restaurant.

Students attend classes in different classroom buildings.

III Enrollment Discipline (Major)

Table 1. List of undergraduate enrollment programs

Number	Major code	Major	Number	Major code	Major	Number	Major code	Major
1	0709	Geology	14	080717	Artificial intelligence (Ai)	27	070801	Geophysics
